

Introducing NUMBER UP!

Building maths confidence for parents and carers in Powys

Maths is an essential skill that surrounds us in our daily lives, helping us count, measure and make sense of the world.

The Number Up project aims to demystify maths and support parents and carers to improve their numeracy skills and includes:

Books & games

Free maths courses

Family activities

If you're a parent or carer who would like to find out how Number Up can support you to be more maths confident, visit
